

## LWVC Food, Soil & Ag Team Panel Discussion...

### Kiss the Ground: Hear from Experts Why We Should

*Learn about California's  
Climate Smart Agriculture Programs  
& how you can support these efforts*

[Kiss the Ground](#) movie has generated a lot of hope in fighting climate change. Hear from experts how different agriculture practices can not only reduce water use, improve soil health, and, yes, sequester carbon.

Our panelists, Nicole Lederer of Environmental Entrepreneurs (E2), Jean Merrill of CalCAN, and Tim Bowles, UC Berkeley assistant professor, will discuss the potential of agriculture to combat climate change, California's Climate Smart Agriculture Programs and how you can support these efforts.

Registrants are encouraged to watch the movie Kiss the Ground (free on Netflix, or \$1 on [Vimeo](#)) before April 21.
