The number one issue that Amarillo is facing is the need to deregulate un-needed codes and standards that are preventing positive growth for our community in residential housing, commercial and retail development, planning for future annexation and growth. We need pro-growth common sense policies.

## JASON FOGLESONG

1. I have a political science degree, and plenty of work experience in a variety of fields. This doesn't make me special, or specially qualified - but it does mean that I have a lot more in common with the average voter than the current political class. A lack of connections is a good thing.

### JOE WEST

**1.** I'm a helper and I like helping people. My whole life I've been the kind of person that listens to problems and tries to think of solutions that benefit people directly. Compassion and empathy are essential characteristics for anyone in public office and I hope to show that to all who need it.

**2.** The biggest issue is the slow movement of effort away from taking care of the basic needs of Amarillo citizens. More and more of our neighbors are feeling left behind or have their problems ignored while other areas of the city see investment and

growth. This is a travesty in my view.

**3.** I will work to ensure that Amarillo has elected officials who will listen to and elevate the voices of all its Citizens, work to implement programs and policies aimed at addressing inequity in Amarillo and I will work to make meaningful changes that positively impact all of Amarillo.

### KAYLA MENDEZ

1. Caprock High School graduate with a B.S. in Chemical Engineering from Texas Tech University and a M.S. in Finance and Economics from West Texas A&M University. I have also served as a trustee for Amarillo ISD for the past two years.

2. Closing the achievement gap and ensuring equity across the district. I believe all of AISD's teachers, administrators, and staff has been and continues to work on addressing

these issues. Addressing the districts aging infrastructure is also a continuous endeavor.

3. It is another tool in a teacher's toolbox. As we have seen this past year technology was key in educating children throughout the pandemic. As things begin to transition into a new sense of normalcy, finding the balance and best application of technology in education will be developed.

2. We demand a lot of our teachers; therefore, appropriate in-service sessions should be an on-going priority to help in

the minimizing of frustration as well as improving confidence through mastery.

3. Virtual Learning is here to stay and our AISD mission statement should and will meet this new learning style. Priority should be given to all Advanced Placement (AP) secondary high school students with integrated teaching-learning for all other students in all grade levels.

**DAVID NANCE**

- 1. The experience of serving on the AISD Board of Trustees has provided such insight for the enormous task of governing a school district. I am pleased with the accomplishments and critical decisions the current board has implemented to ensure successful educational opportunities for all students.
- 2. AISD met the most pressing issue of the day, Covid 19, with extraordinary bravery and determination. Another challenge of equal importance is the monumental task of closing the achievement gap between our students of

differing socio-economic and racial backgrounds.

- 3. We learned through the Covid-19 pandemic that we must be proficient in offering quality education to our AISD students through a multitude of platforms. While we have made great strides with our virtual learning experience, I still believe there is no substitute to students learning in person.

**DON POWELL**

- 1. I attended Forest Hill, Mann, and Palo Duro before graduating from WT. I will also be receiving a Master’s in Educational Psychology this spring. I know the critical role education plays in our success. We must ensure that students have every opportunity to be successful members of our community.
- 2. A great educational experience begins with our teachers and administrators. We must work to retain and attract the very best and listen to their feedback. It’s also critical to make

every tax dollar count and do everything possible to provide educators the tools needed to keep students engaged.

- 3. Recent data shows that most of our students learn better in a classroom. While there might be opportunities for virtual learning, our focus must remain on providing the very best for our students in a traditional classroom setting and working to see that they’re successful in school and beyond.

# CANYON ISD BOARD OF TRUSTEES

## QUESTIONS TO CANDIDATES

- 1. What education, experience and background qualify you for this office?
- 2. What are the most pressing issues facing your district?
- 3. What role, if any, should virtual learning play in future school years?

## Canyon ISD Place 3 (Choose 1)

**RANDY DARNELL**

- 1. 16 years serving as Board of Trustee for the Canyon Independent School District; 19 years serving as a Board of Director for Plains Land Bank; 38 years in business, owning and operating my own farming and ranching operation
- 2. \*Managing growth with infrastructure and curriculum opportunities \*Continuing to monitor expenses, balance revenue and taxes for value to the stakeholders and students \*COVID, protocols moving forward \*Explore ways to grow

our manufacturing academies and dual credit partnering with area colleges

- 3. Virtual must be a part of the conversation but it has to be modified and reformed from its present state. Our district data has proven that online learning, in its present form, is ineffective. In person, collaborative learning is time proven. Effectiveness must mirror in class instruction.

 Current job: Farmer/Rancher

**ZACK SMITH**

- 1. Having come from a family of teachers and administrators, being married to a certified teacher, and having gone to WT to become an Ag Teacher myself, I see the importance of education. Running a small business, I can also see the demand to work together as a community to raise a quality workforce.
- 2. Some of the biggest challenges we face as a district are directly related to growth. While we are blessed to be a part of such a thriving community, the majority of the families

coming to our area are moving into the 734 square miles that make up Canyon School District. This creates challenges.

- 3. While virtual learning was necessary in 2020 and 2021, we can all agree it was TOUGH. Virtual learning was hard on students, families, teachers, administrators, and district support staff. While we now know it is possible, my hope is that we do not have to utilize virtual learning moving forward.

## VANCE SNIDER II

**1.** B.S. Political Science (Graduation 2021). Vance’s military background and leadership skills demonstrate he has a strong desire to serve the people of his community. As a father of two young children who will soon enter Canyon ISD, he is committed to getting involved in their educational journey.

**2.** - Canyon ISD is currently the highest tax rated district in our area at \$1.28 per \$100 evaluation - Remain fiscally conservative and prevent wasteful government spending - Combat Transgenders

competing in athletic events of the opposite sex - Create stronger anti-bullying policy

**3.** While majority of students thrive in the face to face learning environment, some students may also benefit from virtual learning. In a virtual learning environment, students are learning 21st century skills such as collaboration, creativity, communication, and critical thinking.

## JENNI WINEGARNER

**1.** Graduated from UNC-Chapel Hill with BA in Poli Sci. I have lived and worked full-time in Randall Co. for 14 yrs. I have a 2nd and 5th grader attending Canyon ISD schools. My professional experience & perspective as a working mom bring a unique & necessary perspective to my service to CISD.

**2.** Rapid growth is among the biggest challenges & opportunities we face in providing kids the education & tools to succeed while being good stewards for our community. Student performance

is a critical issue as the last 12 months have thrown unprecedented challenges at teachers, students & families.

**3.** Virtual learning was a vital tool to keep our students on track when we had no other option, & over the past year, we’ve learned a lot about how to effectively put this tool to work when necessary. While I think that option has a place in select circumstances, K-12 students need to be in classrooms, face to face with their peers and teachers.

## QUESTIONS TO CANDIDATES

- 1.** What education, experience and background qualify you for this office?
- 2.** What are the most pressing issues facing your district?
- 3.** What role, if any, should virtual learning play in future school years?

## AMANDA BROWN

**1.** I have served on the Board of Trustees of RRISD for the past 8 years. During that time, I have served in the capacity of Secretary and I am currently serving a 2 year term of President of the Board. I am also currently serving as one of two Region 16’s Legislative Advisory Committee Members,

**2.** Of course the most pressing matter at the moment is the issues that all districts are facing due to Covid-19. Those

issues range from funding, enrollment, the “Covid Slide”, and staffing issues.

**3.** I believe virtual learning will be here to stay whether we agree with it or not. There is a place for it, however it can’t replace the in person learning that we have. Children need the social aspect of teaching that occurs in the classroom, as well as the interaction with classmates.

**2.** I feel the most pressing issue with our District is the Pandemic. Our students, families and staff have had an incredibly challenging year. There are so many areas that are underserved that I think we need to talk about.

**3.** Every student has different learning styles and even though virtual learning did not work for the majority of our students, we should not do away with it. I think VL has proven itself, however maybe in a more limited use. Distance Learning is very popular in a secondary schools.

# PANHANDLE GROUNDWATER CONSERVATION DISTRICT

## QUESTIONS TO CANDIDATES

1. What education, experience and background qualify you for this office?
2. What are the most pressing issues facing the groundwater district?

## PGCD Precinct 1

### DEVIN SINCLAIR

1. I am a native of Panhandle and have degrees in Agriculture and Applied Economics from Texas Tech. I worked as a field technician for the district for five years, allowing me to learn about the issues affecting area landowners, farmers, and ranchers first-hand. I also own land in the district.
2. Being an ag-based community, water is a crucial component of our way of

life. It's critical to our livelihood and our future. We must work to ensure our area always has a good water supply and protect it from those downstate who might be eyeing it as their taps run dry. I'll work hard for us all.

Email: [devin.sinclair@triangleins.com](mailto:devin.sinclair@triangleins.com)  
Current job: Account Manager

### PHILLIP SMITH

1. Two years College, eight years U. S. Army, 33 years Board of Directors Potter County NRCS, Panhandle Groundwater District Board 30 years, Farmer/rancher 60 years and I know the importance of conserving our resources.
2. Depletion of the aquifer is advancing, our aim is to preserve, conserve and protect this finite resource. Our goal is to have 50% of this resource remaining

in 50 years. That goal was begun in 1998, so we are midway to achieving that goal, however, we cannot continue to use our water uncaringly.

Email: [dorisbergsmith@wildblue.net](mailto:dorisbergsmith@wildblue.net)  
Current job: Self employed

## PGCD Precinct 9

### TIM INGALLS

1. I currently manage the Frying Pan Ranch with landholdings between Amarillo and Wildorado. Over time our wells have become less productive and we have moved to dryland crop production. So, I been working on finding new cropping and water management solutions for our farmland in Potter county

2. Water table decline is our most pressing issue. While metering and regulation is important, too much regulation also creates added costs for producers and can drive farm consolidation. Let's keep current regulation intact but also drive improved education and farm management to improve watersheds.

Current job: Ranch Manager

### LEE PETERSON

1. I was born and raised in Amarillo and attended Amarillo College and Texas Tech. My business, Peterson Drilling, specializes in water well and environmental drilling, which has allowed me to learn about the issues relating to our groundwater. I am also a landowner in the district.
2. Ensuring our water supply is critical to our future. But,

we must balance our conservation efforts with the needs of landowners and the ag and energy industries across the district. The water in the Panhandle belongs to the Panhandle, and I'll work to make sure it stays right here at home.

## » VOTE EARLY

- Voters may vote early at any voting location in their county.
- Find your polling site at [VOTE411.org](https://VOTE411.org) or your county election website.

## » SUSPENDED VOTER

You can still vote if your voter registration is in suspense! “Suspense” means that your county voter registrar needs to confirm your voting address.

## » HOW TO VOTE A LIMITED BALLOT ONLY!

During early voting, a registered voter who has moved from the county in which he or she is registered to a new county of residence in Texas, and who will not be registered to vote in the new county before Election Day, may be eligible to vote a “limited ballot.” A limited ballot allows you to vote on any races the old and new counties have in common.
