

**The League of Women Voters of Los Angeles Recommends**  
**June 4, 2019 Special Election Los Angeles Unified School District**

**Measure EE      Los Angeles Unified School District Parcel Tax      YES**

Measure EE aims to increase funding by levying a \$0.16 per square foot parcel tax to support a school system and the needs of a diverse student population. The Measure requires annual audits, oversight and restricts funds which satisfy the League's governance and accountability requirements. It takes into consideration and provides an exemption process for seniors over 65 years of age and disabled persons.

Measure EE aligns with the Los Angeles League of Women Voters Education position, which encourages the District to "should seek creative ways of increasing school revenues, including parcel taxes".
