

Will Liquefied Natural Gas and Other Flammable Hydrocarbons be Exported Via Delaware River?

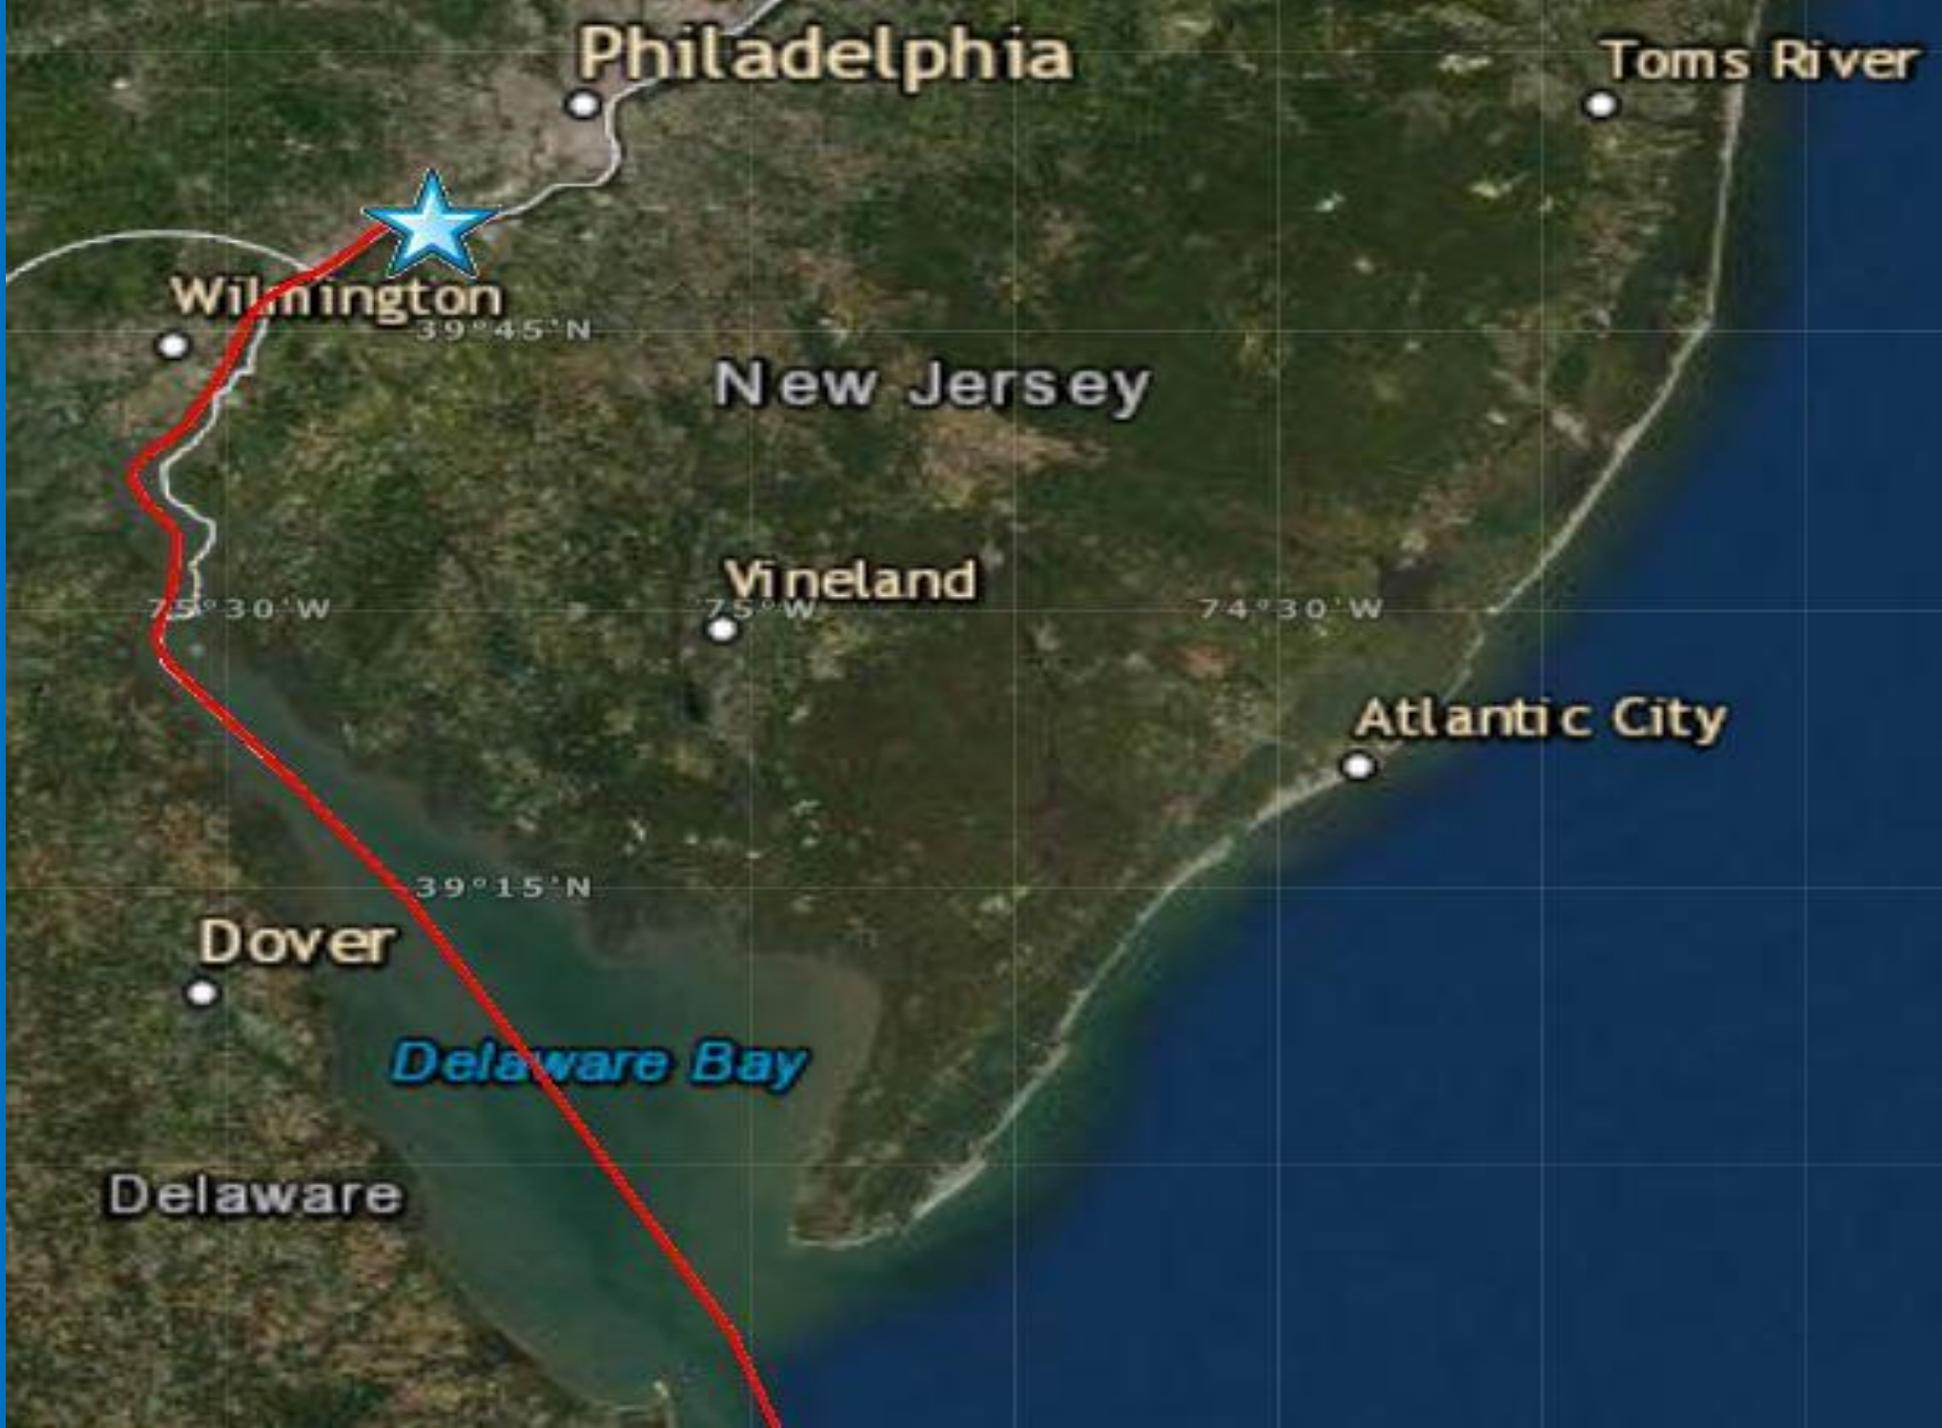

**League of Women Voters with
Delaware Riverkeeper Network
New Castle County
Hot Topic Discussion
August 24, 2020**

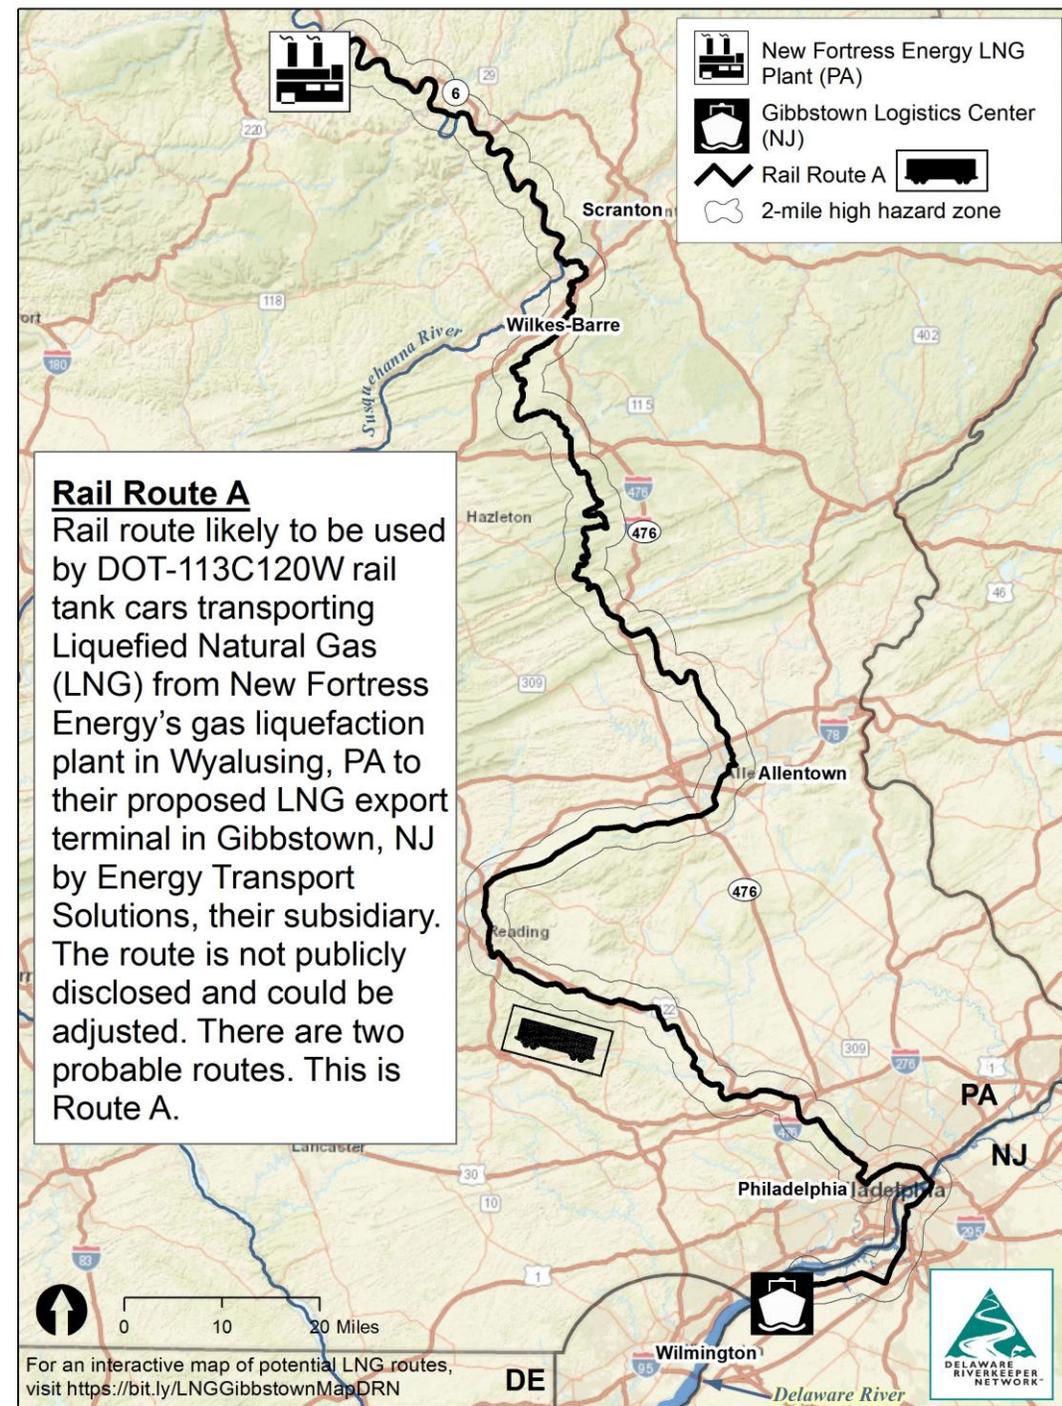

Ships would exit the Dock at Gibbstown, travel down the river, through the Delaware Bay, on the ocean to foreign ports

From fracked wells in PA's Marcellus Shale to New Fortress Energy's LNG liquefaction plant in Wyalusing, Bradford Co., through 200 miles of PA and NJ communities, to the proposed Gibbstown LNG Export Terminal on the Delaware River

LPG Explosion – tank car

LNG explosion – 2 trucks

Much can done to stop LNG export from Gibbstown now
