Subject: Programming Possibility

Hi Anne,

Lovely to speak with you today.

As discussed, the Natural Resources Commission would indeed like to explore the possibility of co-hosting speaker [David Foster of the Harvard Forest](#) with the Wellesley League of Women Voters. We believe Wellesley residents would be especially interested in learning about the importance of preserving our urban forests in order to secure a sustainable future, which Dr. Foster's [Wildlands and Woodlands project](#) addresses.

The League's long history of public policy positions supporting legislation to protect our natural resources goes hand in hand with the mission of the NRC - I think this makes us natural partners!

I look forward to hearing your Board's thoughts after your December meeting.

Best,

Raina
