

Connecting the Region

- Public-Private Transportation Management Association (TMA)
- Serving communities and businesses along the Fitchburg Commuter Rail/Route 495/Route 2 corridors
- Improving regional transportation options
- Reducing traffic congestion and air pollution

Multiple RTAs, Limited Options

Public-Private Partnership

Ongoing Focus Areas

- ▶ "Daily needs" trips
- Suburb to suburb commuting
- ► Traditional commuting *to* Boston area
- ► Reverse commuting *from* Boston area

Employers

- Need access to talent
 - Many young workers prefer living in the city
- Have environmental goals
- Are hurt by traffic congestion
- Developers gain value from access to their properties

THE GUTIERREZ COMPANY

Commuter Shuttles

Daily Services

- Centralized dispatching
- Shared Council on Aging (COA) and other on-demand community shuttle services
 - ► 'Daily needs' trips
- ► Fixed route shuttle services
- Medical trips to local destinations; Friday medical trips to Boston and Bedford
- ► First mile / last mile shuttles to / from Commuter Rail

Workforce Transportation Grant Program

"The MassDOT Rail & Transit Division is launching a new program that will provide funding for projects aimed at meeting workforce transportation needs around the Commonwealth."

Source: MassDOT

► With more information at people's fingertips, MassDOT is restructuring its workforce grant program away from outreach and education to more "hard" services — e.g., shuttles, vanpools, EV charging stations, etc.

Workforce Transportation Grant Program, Cont.

This year, MassDOT seeks to award up to \$4,580,000 of Federal and State funds to projects that will provide workforce transportation service. Eligible applicants include:

- Employers
- Transportation Management Associations (TMAs)
- Municipalities
- Non-profit organizations
- Regional Transit Authorities (RTAs)
 Source: MassDOT

The Concord Shuttle Proposal

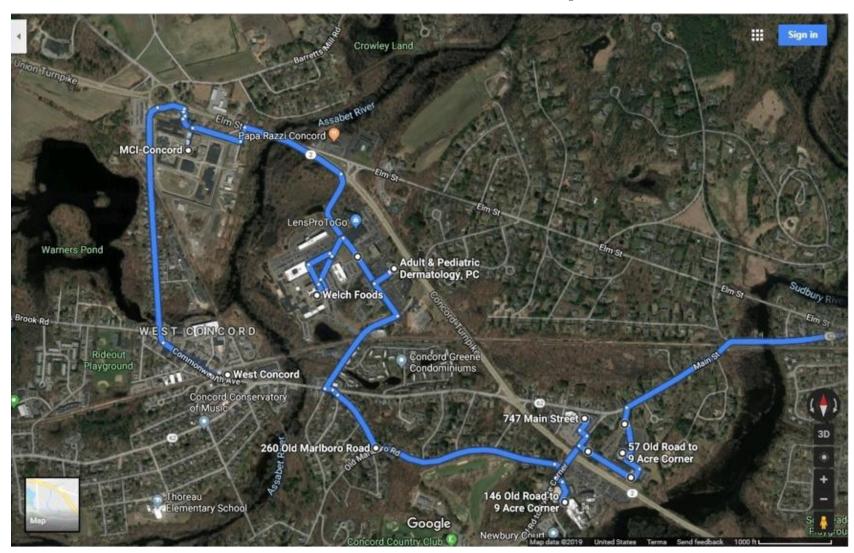

CrossTown Connect is seeking grant funding (\$145,000) from the WTGP to pilot a fixed route shuttle in Concord for the general public.

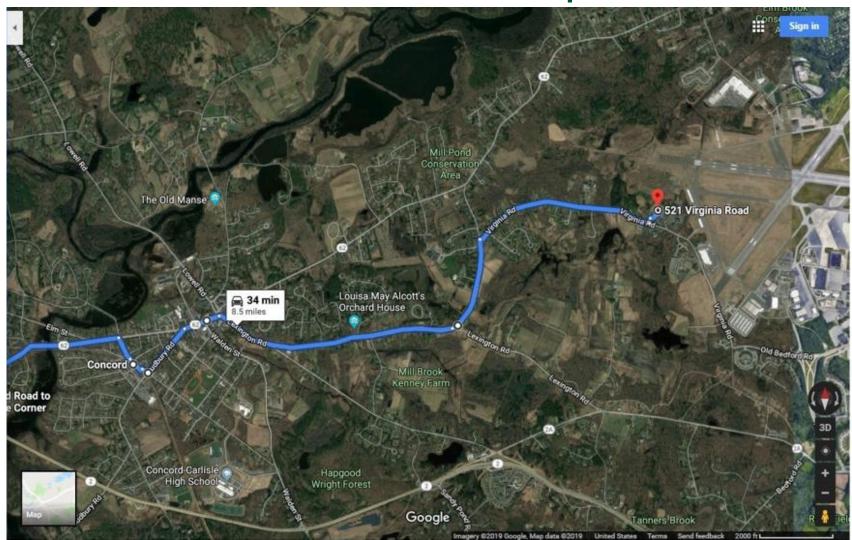

- Grants require a minimum 20% match.
- Grant proposals may seek funding for multiple years, but organizations must reapply each year and must have a plan for sustainability through decreasing reliance on grant funding.

► Currently, outside of the Commuter Rail, Concord lacks public transportation that's open to all people.

- The COA vans and The Ride are resources for seniors and people with disabilities. Each requires reserving a ride in advance.
- ▶ Initially, we propose the shuttle runs from 7:00 AM-7:00 PM.

► The proposed route would connect Commuter Rail stations to businesses and medical facilities in West Concord, Concord MCI, downtown, and Virginia Road.

This route would:

- Provide increased access to the community, medical facilities, employment, and other amenities for people who have limited access to transportation
- Reduce traffic congestion by providing another way for commuters to get to work
- Introduce an alternative way for visitors and tourists to access the community
- Be fully wheelchair accessible and ADA compliant
- Create economic opportunities for local businesses and institutions

Concord Shuttle Proposal - Next Steps

- ► The Request for Proposals closes on October 11th
- Awards will be granted sometime in November and programs may begin as early as January 1st
- ▶ If awarded the grant, Concord and CrossTown Connect will work together to:
 - Choose a shuttle vendor
 - Brand the service and design a marketing plan
 - Work with businesses, institutions, and local stakeholders to define the stop locations
 - Finalize the route and schedule
 - Choose a start date to launch the service

First Year

- Gather data on ridership, on-time performance, unmet needs, etc.
 - Metrics also need to be reported to MassDOT
- ▶ Tweak schedule/route as necessary
- Approach businesses and institutions for financial partnership
- Develop next year's grant proposal
