

ESTUARY SPEAKEASY

**Earth Day, April 22nd
7 p.m. @ 7 Devils Brewery**

A Pub Talk for Blue Carbon,
Natural Climate Solutions, and
Restoration Opportunities in
the Coos Estuary

Craig Cornu, Institute for Applied Ecology and PNW Blue Carbon Working Group

Craig led the team developing the blue carbon mapping tool used to inventory carbon stored in the Coos estuary and to help estimate the climate mitigating effects of restoration actions. Learn about blue carbon and how the mapping tool and regional blue carbon calculator can be used to inform tidal wetland restoration and conservation.

Annie Merrill, Ocean and Estuaries Manager, Oregon Shores Conservation Coalition

With a background in estuarine ecology and marine resource management, Annie is the lead on Oregon Shores' Campaign For Oregon's Estuaries. Learn about opportunities for public engagement in estuary conservation and statewide efforts to increase climate resilience of our estuaries.

*Presented by Oregon Shores Conservation Coalition, Coos Head Food Co-op,
7 Devils Brewery, and League of Women Voters of Coos County.
Sponsored by Earth Day Oregon*
