## Legalize Equality

Movie and discussion

Saturday, March 7 at Beloit Public Library, 10:00 a.m.

This streamlined and updated short film is excerpted from the award winning 2016 documentary, Equal Means Equal. Women in the United States are still without an equal rights constitutional amendment and still suffer less pay, unequal healthcare, poverty, and discrimination... The fight for equal rights is still being fought. How long have women been fighting for this? What still needs to be done to make sure all women have equal rights?
