

# Health Care Caucus

# Inequities & Opportunities

Monday • June 7 • Noon to 1 P.M.

**Zoom  
Format**

**Special Guest**

## Susan Rogers, M.D.

Dr. Rogers, President of Physicians for a National Health Program, has a particular interest in health equity. She has been a faculty physician in internal medicine at Cook County Hospital in Chicago and medical director of a community health center providing primary care to low-income patients.

**The League position on Diversity, Equity, and Inclusion supports the need to respond to the social, economic, and racial inequities in our healthcare system.**

**The caucus will engage attendees around these questions:**

- What are the inequities in our health care system?
- What changes are supported by the League's positions on Health Care and DEI?
- How can we achieve the League's position?

**Open to all Convention Attendees and the Public.**
