

My name is Alexa Singer and I am running for re-election on the Select Board.

I am a long-time resident of Marblehead raising two teenage daughters. I have served on the Board for the past 3 years.

As my record shows I am not afraid to make tough calls and ask hard questions. I will continue advocating for issues that are timely and need to be prioritized.

In the year 2024 there are challenges facing Marblehead. My goals are to continue working towards opportunities for growth and tackling the structural deficit. I want to ensure everything is executed with **strategic planning** and the **financial impact** on the taxpayer in mind,

As a member of the Green Marblehead Implementation Committee, we completed the action plan and hired a sustainability coordinator to secure grants and additional funding for town projects. We are now **first in line** for state and federal grants to **fund** the projects. Money needed for our infrastructure, resiliency work and harbor.

In the next decade we could face massive impacts and millions of dollars on the harbor alone. I want Marblehead securing the funding to help pay for the projects our town needs. Throughout this year we updated the Capital Planning Committee, hired a Human Resource director, and committed to presenting a multiyear financial plan.

We now have updated financial policies and they enable clarity and consistency as well as contributing to the financial health of the town.

I believe in planning and implementation.

You need a team player who will turn over every rock and find creative ways to address problems. I will be your voice.

We have a responsibility to educate our children and grandchildren, tackle rising energy and health costs and provide the care our citizens and employees deserve.

We cannot dismiss the role an individual Select Board member can play in the management of a town when they put forth the effort.

I know the challenges facing Marblehead. I do my homework and listen to all sides. You need the right people at the table and I am one of them. I would be honored if you choose Alexa Singer on election day.
