## October 2018

Vote with the League!
The League of Women Voters of California Recommends

#### YES on Prop 1 Veterans and Affordable Housing Bond

California is experiencing a housing crisis. The state's extreme shortage of affordable housing has life and death consequences, especially for people with low incomes. Housing instability has been linked to public health crises, food insecurity, and developmental problems in children. Prop 1 will build and preserve affordable homes, including supportive housing, for veterans, working families, people with disabilities, Californians experiencing homelessness and others struggling to find a safe place to call home. It will authorize \$4 billion in general obligation bonds, to be used to support these affordable housing programs. It would also leverage federal dollars for construction of new housing.

#### YES on Prop 2 Homeless Housing Bond

A quarter of the nations's homeless reside in California—over 130,000 people. A significant percentage of our homeless population suffers from mental illness. Prop 2 allows the use of unspent money, originally allocated through a 2004 measure to fund mental health services, to be used to address the problem. If passed, the unspent money would be used to provide permanent supportive housing for people who need mental health services, and are either currently homeless or at risk of becoming homeless.

#### NO on Prop 3 Water Bond

It is essential that California manage and develop water resources in ways that benefit the environment, and that the environmental focus emphasizes both conservation and use-appropriate high water quality standards. However, this bond is not the way to accomplish those goals. While the LWVC supports the use of long-term debt (bond measures) to finance capital projects, this measure has a number of fatal flaws including: 1. Shifting the cost for water from end users to California taxpayers; 2. Reducing state money available for other critical state programs like education, affordable housing, and healthcare; 3. Failing to provide for adequate project oversight and financial accountability.

## Vote with the League! The League of Women Voters of California Recommends—

#### NO on PROP 4 Children's Hospital Bond

While the League of Women Voters of California supports quality healthcare for all Californians, Prop 4 would use \$1.5 billion in public, general obligation bond money to support privately-owned children's hospitals, along with five children's hospitals in the University of California system. State funds should not be used to support private facilities. This principle stands even when, as is the case in this measure, the facilities serve severely ill children. The bond money would be used for construction, expansion, renovation, and equipment projects. These are capital improvements that could be funded either through revenues the private hospitals generate or through capital campaigns (where, for example, a building is named after a donor.)

#### NO on PROP 5 Property Tax

Property taxes are the major source of funding for schools and local services. Prop 5 is a costly constitutional amendment that would reduce funds for schools and local services by \$1 billion per year. In exchange for that \$1 billion a year, Prop 5 would provide special tax benefits to some property owners. It does nothing to help low income seniors, or families struggling to find housing. Seniors already have the ability to keep their tax break when they downsize. Prop 5 drains California's coffers of money that is essential to schools and communities.

#### NO on PROP 6 Gas Tax Repeal

California is in critical need of highway and local street repairs and maintenance, and improvements to mass transit and transportation. Prop 6 would repeal the recently-enacted 2017 package of taxes and fees approved by the State Legislature to fund transportation projects, amounting to a loss of \$4.7 billion in annual funding. The measure would also add a constitutional amendment requiring any fuel or diesel taxes to be approved by voters, limiting the legislature's ability to address California's serious infrastructure needs. Passage of this repeal measure would have significant negative impacts and leave our state structures vulnerable, especially during natural disasters.

#### YES on PROP 10 Repeal Costa Hawkins

Multiple strategies are needed to address the significant housing shortages and inequities that exist across California. While this rent control measure offers little systemic progress, and may not result in adding new affordable housing units, it does allow local communities to respond to the housing crises in ways that are appropriate for each of them We support providing local communities with this control.

**NOTE:** Because League positions do not cover the issues in the following measures, LWVC is taking no stand on **Prop 7** (Daylight Savings Time), **Prop 8** (Dialysis), **Prop 11** (Ambulance Drivers), and **Prop 12** (Farm Animals). **Prop 9** was removed from the ballot.

#### Message From

# President Anne Omsted

Sincere thanks to all of our members who are

working on our various Voter Service projects! We have members registering people to vote, studying and presenting the Pros and Cons of state and local ballot measures and helping out at candidate and issues forums. Thirty-two of us will be working at three local libraries the last week before election day taking in mail ballots for the Registrar of Voters.

Our energetic and talented Voter Service Director, Elizabeth Brady, is going back to work full time at the end of September. Thank you, Elizabeth, for all the hours of work and dedication you have given to our League. To cover voter services requested after Elizabeth leaves us, Barbara Lorenzen has kindly stepped up to handle any forum requests that come in, and I will field any Pros and Cons requests. Anna Lillian will continue to schedule the Pros and Cons. Please feel free to call me if you have any questions, want to suggest a forum or Pros and Cons group presentation, or anything else related to Voter Service that may come up.

At our Kickoff meeting on 9/15, Greg Anglea of North County Interfaith Services spoke about our North County homeless population. One thing he mentioned will lead to action by our League. The state is releasing millions of dollars for emergency shelter to cities and councils that ask for it. One prerequisite to requesting the funds is that each city pass a Resolution regarding lack of enough Emergency Shelter. Our League will be following up on this issue and asking every North County city to pass such a resolution and apply for funds to help shelter their own population of homeless.

And finally, encourage everyone to Vote!

Anne

**Board Briefs:** at the 9/7/18 Board meeting the following actions were taken:

Nancy Telford was appointed First Vice President-Administration. She retains her Membership Director position.

Ratified Executive Committee decisions during the summer break to send letters to the County Board of Supervisors regarding exceptions to the General Plan, to the Tri-City Hospital Board urging them not to close their 18 bed psychiatric care unit, and to the County encouraging them to award monies for women who are homeless because of domestic violence.

Planned for the 9/15 Kickoff meeting

Agreed to hold a forum on 10/2 regarding fear of gun violence and the effects on our community. This was postponed because two major speakers had to drop out due to calendar conflicts.

The resignation of Elizabeth Brady as Voter Service Director was announced and an alternative plan of service accepted.

Endorsed the Carlsbad School Bond Measure - Prop HH.

Approved sending a letter to the Del Mar Fair Board presenting the LWVUS position on guns.

Approved a letter to the Union-Tribune Community Forum informing the public of the Board of Supervisors practice of giving multiple exceptions to the County General Plan for development in the back country. As of 9/15 the U-T declined to print the letter.

#### **Strategic Communications**

Strategic Communications supports our League's goal of building on the Making Democracy Work® campaign so we have unified messaging with a strategic focus tied to our core mission—voting.

The Group is focusing on a different kind of voter engagement and a new way of talking to younger and more diverse voters. This is a short-term pilot program leading into the mid-terms to determine the effectiveness of using these new techniques and acquiring knowledge for long-term election planning into 2020 and beyond.

Working on the Voter Engagement pilot program are members from each Unit representing three areas—strategic planning, press, and website/social media, who are teaming up with our Voter Service representatives: Katie Wheeler, Suzanne Carneiro, Arleen von Schlieder, Norelynn Pion-Goureau, and Loann Simon.

During their first three meetings the group selected Millennials and Latinos as their target group, then identified online and offline tactics to connect with them to encourage voting by November 6. A strategic action plan with messaging specific to these segments is in the final stages for outreach to young families at childcare and neighborhood centers, the Latino community through their local churches and community centers, and the LGBTQ community at the large Oceanside center.

LWV is changing and adapting during this critical time in our democracy while keeping to the same principles and values. If we all work together in making this transformation successful, we'll remain the grassroots organization that's trusted by so many to encourage active participation in government, influence public policy through education and advocacy, and engage our community to be informed voters.

Contact Loann Simon if you want to get in on the action as a volunteer or if you can give us leads/entry into these communities! Now is the time to act!

#### **County News and Issues**

Cathy Greene, Regional Government Issues Director

Over the summer months, our League lobbied the San Diego County Planning Commission and the Board of Supervisors concerning the requests for land use amendments to the County's General Plan to permit large scale and high density developments on land zoned for rural and semi-rural use. While our appeals and the appeals of many residents and community organizations seem to have fallen on deaf ears, we continue to hope that the Board of Supervisors will adhere to the County's well thought out General Plan when considering the Newland Sierra,\* the Lilac Hills Ranch, and the Warner Ranch projects. Newland Sierra is to be decided at the Board of Supervisors meeting on September 26th; the last two projects have been delayed until early December. Our Leagues will continue to lobby for responsible land use decisions but it is also up to individual voices like your own to address these issues by contacting the Board of Supervisors.

The organization Safeguard Our San Diego Countryside has received final certification from the County Registrar of Voters that the SOS Countryside Initiative has qualified to be on the March 2020 ballot, the presidential primary for 2020. This organization continues to actively campaign and lobby the Board of Supervisors to bring a halt to the large developments mentioned above.

Similarly, Oceanside's Save Open Space and Agricultural Resources (SOAR), aims to halt proposed rezoning of portions of Oceanside's agricultural lands. SOAR has succeeded in placing an initiative, Measure Y, on the ballot for Oceanside voters to consider in this fall's election. This measure, if passed, would require voter approval for Oceanside General Plan changes of land use designations from open space and agricultural.

Remember that every fourth Wednesday the San Diego League hosts a Lunch with League. The topics vary but they often feature issues and speakers that are of interest to us in North County. We will send out information about this luncheon monthly to our members but you can visit the LWVSD website to learn more about it. Contact me if you want to carpool to these events.

\* The San Diego County Board of Supervisors voted 4-0 Wednesday, September 26 to approve the Newland Sierra project that plans to build 2,135 homes, commercial space, parks, trails and a school site in North County along Interstate 15 near Escondido and San Marcos. Supervisor Dianne Jacob was absent.
