Environment Lecture Spotlights Plastics

Join us for the Jeanette Ross Environment Program for 2024, Plastic Pollution Crisis in Pennsylvania on Thursday, March 21, 2024, 7:30 PM via Zoom. Kathy Cook will share information from Beyond Plastics, a national organization dedicated to educating the public about plastic pollution, and she will discuss the plastic pollution crisis in Pennsylvania.

She will tell us how we can reduce the amount of plastic in our environment. Kathy is a volunteer speaker for Beyond Plastics; an organizer for the Chester County Environmental Alliance Single-Use Bag Ban Coalition, and a board member of the League of Women Voters of Pennsylvania (LWVPA). She is also a member of our league, LWV of Central Delaware County.

Through her environmental advocacy work, Kathy has learned that plastics and the fossil fuels from which they are derived are major drivers of climate change and environmental harm. During the presentation, Kathy will share data and facts about the plastic pollution crisis but will also share solutions to this problem. Most of them are very simple, and most of them are within your power.

The presentation is free but you must register to receive the Zoom link. <u>Click Here to Register</u>.

NOTE: Prior to the webinar the Zoom connection link will be emailed to those who register so email is required. The presentation will be recorded and all those that register will receive a link to the recording and related materials as a follow-up. President's Message

The League of Women Voters has three levels of organizational structure consisting of national, state and local levels. Through my President's message in February, March and April I am sharing how the League of Women Voters advocates to influence public policy. This month, I am focusing on the state LWV:

Advocacy Statement from Maria Delgado-Santana, President of LWV of Pennsylvania

In the ever-evolving landscape of democratic governance, the League of Women Voters of PA remains poised to address pivotal challenges and opportunities in the year 2024. Committed to fostering a resilient and inclusive democracy, our focus revolves around critical pillars that shape the foundation of our democracy. As we navigate the complexities of this critical election year, LWVPA will direct its attention towards key policies, encompassed broadly by election administration and funding, voting integrity, representation, social policy, and environmental sustainability. By outlining the following core areas, we aim to contribute to the advancement of a vibrant and responsive democratic system that reflects the diverse voices and concerns of our citizens. This is intended to be a summary statement of the priorities we expect to focus on at this time. However, this list is not exhaustive, and does not disallow LWVPA from taking action on other issues.

LWVPA Advocacy Priorities Include:

- Election Administration and Funding
- Voting
- Representation
- Social Policy
- Environmental Policy
