The first decade of the 20th century was a time of great social & cultural upheaval for women in the U.S. with the pursuit for equality paramount within the agenda. This talk will examine the CA Campaign for Women's Suffrage as seen through the experience of the women of Yolo. Using images & newspaper articles from the era we will look at how Yolo women were finally able to mobilize & organize a "full on" campaign against all odds, culminating in the 1911 passage of Senate Constitutional Amendment #8, the "Right to Vote for Women."

NO RESERVATION REQUIRED.

Free virtual event for all ages.
