LWVSC Testimony before the Constitutional Laws Subcommittee, H. 3734

The League of Women Voters of South Carolina applauds the improved consistency that H.3734 will bring to municipal elections. Our only criticism is that there is no need for options other than holding such elections in November of odd-numbered years. Voters expect general elections to occur in November, and municipal elections should not be an exception. March and July options simply confuse voters and add to election official burdens.

We ask that you amend this bill to eliminate the March and July options and then forward it with a favorable recommendation.
