HAMILTON-WENHAM
PUBLIC LIBRARY**

Do you know where you get your drinking water? Do you wonder why your town has an outdoor water ban and other neighboring towns do not? Do you wonder what local leaders are doing to secure water supplies for the future?

Join us for a discussion on where and how residents of Hamilton and Wenham get their drinking water. We'll hear about existing challenges and look to the future of how we can adapt to those challenges. We'll hear from Senator Bruce Tarr and Representative Kristen Kassner on the work they are doing at a legislative level and with the North Shore Water Resiliency Task Force to ensure our communities are prepared for the future.

Meet Our Panel

- **Erin Bonney Casey**, Resiliency Program Director, Ipswich River Watershed
- **Kristin Kassner**, Massachusetts State Representative
- **Bruce Tarr**, Massachusetts State Senate Minority Leader

This speaker series is presented by LWVHW in partnership with the [Hamilton-Wenham Public Library](#) and with funding from the Hamilton-Wenham Cultural Council, a local agency which is supported by the [Mass Cultural Council](#), a state agency.

These events have been incredibly informative - don't miss the last one! And if you want to catch up on previous speakers, you can watch recordings on our website, www.LWVHW.org. Most recently, we addressed [Media Literacy](#) in February and [Sustainability](#) and [Affordable Housing](#) earlier this year. You can watch recordings of these events online, courtesy of HWCAM. While you are there, you can also check out the very informative [Civics 101 presentation](#) and the lively panel on [Local Journalism](#).
