

LEAGUE LINE

A Bulletin of The League of Women Voters of the Lewisburg Area

FROM THE PRESIDENT

I have recently taken up riding my bike an average of 6-7 miles every morning. Now, before you develop mental images of a 75-year-old in skin-tight lycra sporting an athletic helmet and riding gloves, let me be a bit clearer. I have a recumbent trike. There is no form-fitting lycra or helmet (although there are many who may argue that I need one for other activities such as mowing the lawn). There is no tedious balancing on a recumbent trike. If you wish to take a break, you just stop, thus the 3 wheels. You actually look a bit like you are pedaling your recliner about.

That leads me to what I really wanted to say. When I'm out riding each morning on the country roads around our house, I am repeatedly struck by the absence of noise. There is sound of course: birds, dogs, horses and other critters. There is also the occasional car, tractor or horse drawn buggy...but not real noise.

It is remarkable how much noise there is in our daily lives. It ranges from the chatter of news media, the cacophony of traffic, the babble of technology, and the ever present "tumult of party politics".

There can be very serious effects of noise and noise pollution on all of our lives and mental health. It is always advisable to eliminate, or at least minimize, the level of noise in our daily activities. We can replace some of it with music and long early morning rides in the country. But other noise needs to be replaced with the truth. In our current political environment, wouldn't it be nice if we could just reach for a knob and turn the volume down...or even just "mute" the noise?

INTEGRITY OF THE BALLOT TASK FORCE

The "kick off" of the Integrity of the Ballot (IOB) project took place after the Tuesday, September 19th Educational Forum. The team presented an overview of the project and requested submission of relevant questions for the development of the program.

Immediately following next month's Educational Forum on Tuesday, October 17th, the first module of the election process will be presented for open discussion. The October module will be focused on the various methods of voting: in-person, mail-in, absentee, provisional, etc. Future modules will include topics like security of the voting machines, roles of the various voting personnel, who counts the ballots and other subjects. We welcome you all to attend.

BOOK CLUB

We invite you to explore the topic of Artificial Intelligence with us for our December discussion. There are two books we think may lead to an interesting conversation. The first is *The Coming Wave: Technology, Power and the 21st Century's Greatest Dilemma* by Mustafa Suleyman. And the second title is a mystery novella that was written using several AI tools entitled *Death of an Author* by Aiden Marchine. Stay tuned for the specific date and time in December!

Distribution List Manager

Here's another opportunity for you to get involved with your League. We are looking for someone to manage the distribution of our publications.

The Voter Services Committee needs a **Distribution List Manager.**

Qualifications: Since we already have an established list of volunteers, the main job is to maintain the distributors' lists which we use to distribute the semi-annual *Voters Guide* and the yearly *Facts for Voters*. The manager will contact volunteers through email and phone calls. S/he will also need to contact LWVLA members to fill vacancies. This position offers a chance to get to know and talk with members. The Distribution Manager will communicate with distributors three times per year at least eight weeks before the two election cycles and before the disbursement date of the *Facts for Voters* to determine their availability. Very basic knowledge of Excel would be helpful. Training is available.

Who's Running in the Upcoming Elections?

What you need to know!

Here are two ways to learn about who's running in the upcoming elections:

1. The Fall 2023 *Voters Guide*

In Print: LWVLA will be printing *Voters Guides* and distributing them to 124 sites. When you go to a store/library/post office that doesn't have any visible copies of the *Voters Guide*, ask if it is available. If not, and the proprietor is willing to provide them, contact me and I'll drop some off. We currently provide the *Voters Guide* to the Union County libraries and post offices.

Online: The *Voters Guide* will be available on our local League's website at:

LWVLewisburgArea.org/voter-resources/voters-guide

2. VOTE411.org

VOTE411.org is the LWVUS (National League's) innovative "one-stop-shop" for non-partisan election-related information, both general and state-specific. Compare candidates' information side-by-side, and create your own custom ballot based on your address. **VOTE411** tends to have the most up-to-date information, because candidates who don't answer the questions in time for the *Voters Guide* printing cut-off date can do so on the **VOTE411** website up to the day of the election. **VOTE411** also provides links to register to vote, check your voter registration, find your polling place, discover upcoming debates in your area, and much more!
