

The Voter

November/December 2023

President's Remarks

The League's mission is: Empower Voters. Defend Democracy. To that end, our action teams have hit the ground running in both our education and advocacy efforts.

The LWVVC voter service team participated in two panel discussions on the importance of voting. They assisted voters at Port Orange Family Days, and partnered with Volusia County Schools, Department of Elections, as well as education and speakers bureau to provide registration and education assemblies at Deland, Seabreeze, and Spruce Creek High Schools. We continue our work to improve the community and lend our voice to issues impacting our citizens.

Our action teams have engaged in community outreach initiatives to support beach cleanup efforts, collect petition signatures for the Stop Government Interference in Abortion amendment, advocated for ECHO and Volusia Forever funding at a recent county council meeting, and voiced concern about the removal of library books at a school board meeting.

In preparation for the upcoming legislative session that begins in January, LWVFL identified four legislative priority areas: Election Law, Reproductive Rights and Justice, Education, and Gun Safety. In the coming months, League members should be on the lookout for action alerts from the state with updates about pending legislation and ways that we can lend our voices to the cause. **LWVFL lobby days in Tallahassee will be held on January 23 – 24, 2024.** This is an exciting opportunity for League members to learn about the legislative process and meet with our local delegation to express our positions. Any LWVVC members interested in participating in this event can contact me at president@lwvvc.org.

In support of our goal to engage and expand our membership, our membership outreach team has been busy hosting meet and greets for potential new members as well as get-togethers for current members to learn more about what's happening in the League and connect with other members in their geographic area. If you are interested in learning more, contact Bonnie Friedman at bonnietunes@yahoo.com.

If you have not yet seen our new **LWVVC t-shirts**, check out the article in this edition of The Voter. Shirts are available to all members and are a great way to promote our League in the community when we are participating in local events. The funds raised will go towards supporting our local efforts. Many thanks to **Saralee Morrissey** for her generous donation to make this possible.

Be sure to mark your calendars for our upcoming events. Our annual holiday social promises to be extra special this year and we look forward to seeing many of you there!

As we approach the holiday season, let's take a moment to reflect on all that we have to be thankful for and keep those who are facing the terrible tragedy of conflict in our hearts.

**In League,
Nicki Junkins, President**

League membership runs July 1 to the following June 30. We always have a grace period but now it's time to renew if you have not done so. If you have renewed, thank you! If you don't recall please email me at OAH@Vyndicar.com and I'll be happy to check the roster.

You can either send a check to LWVVC, P.O. Box 9695, Daytona Beach, FL 32120, or [renew online with a credit card](#).

Membership plus donations are how we fund our activities and especially our Voter Service efforts, such as Vote411, our website, and Constant Contact contract. We are all volunteers but though we run on a lean budget it still takes funds to do what we are good at. We depend on your generosity and membership even if you are not particularly active but agree with our mission. Your support is valued and it helps the League as we are out in the community helping inform people of issues of public concern.

2024 will be a very busy Voter Service year with the Presidential Primary, August Primary, and the General Election. We need everyone to join us for this important task as we fulfill our mission. Will you help?

For questions, contact Membership Roster Chair Olga Hernandez oah@vyndicar.com

Power of the Ballot

Left to right: Community leaders Rev. Ruth Plummer and Daisy Grimes, Courtney Williams, Bethune Cookman student ambassador for Black Youth Vote, and Nancy Nusbaum (LWVVC Voter Service Chair)

On Friday, October 13, Pat Drago, Ann Smith, and Nancy Nusbaum attended a round table for the "Power of the Ballot" at Midtown Cafe. The theme was passionate expression by black women leaders, suppression of black history education in the schools, and access to voting and resources in the community. [The News](#)

Pat, Ann, and Nancy engaged in frank conversations about the League being most effective by supporting the black leaders in their voter education efforts. Overall it was tremendously inspiring to hear the determination and passion among these leaders.

At the Port Orange Family Days, October 14 and 15, Kathie Eichinger, Carla Christianson, Suzanne Ronneau, Joyce Monaco, Suzy Rudolph, Jeanne Tanke and Nancy Nusbaum assisted voters to request Vote By Mail (VBM) ballots and register or update registration to vote.

In preparation for the 2024 elections, an information card was created for distribution to the public at League events. In response to Florida's new restrictions and potential financial penalties on third party voter registration organizations like the LWV, we are now assisting people to self-register and request VBM.

Upcoming voter service events include voter assistance at the Alpha Kappa Alpha (AKA) sorority meeting where Nicki Junkins will be speaking for voter education, participation in the January Latin Festival and in the Black Home Schoolers event in February. We hope the high school voter program with the supervisor of elections will be rescheduled. Some school programs were postponed due to test scheduling.

LWVVC President Serves as Panelist at Importance of Voting Forum

LWVVC president, Nicki Junkins, served as a panelist at Bethune Cookman University's Alpha Kappa Alpha Sorority Forum on the Importance of Voting. Panelists updated participants on recent legislative changes that impact voting, important community issues that voters should consider when voting, and resources for becoming an informed voter. Dr. Junkins shared information about the League's vote411.org website which serves as a one stop shopping resource for election related information.

Pictured from left to right:

- Dr. Nicki Junkins (LWVVC President),
- Cherise Webb-Moore (Chair, AKA Connections and Social Justice Committee),
- Dr. Victor. E. Gooden (President of Daytona Beach Black Clergy),
- Daisy Grimes (Vice President of The Links community service organization),
- Cynthia Slater (President of Daytona Beach NAACP).

Our Members Speak

Meet Patricia Drago LWVVC member since 1981.

Now retired, Pat resides in Daytona Beach between Seabreeze High School and Beachside Elementary Schools. Pat was employed by Volusia County Schools for 22 years and was the Executive Director of Facilities for 15 years of that time. She states that her job was acquired from LWVVC activity and training. In her spare time, Pat enjoys reading, gardening, sewing, cooking, and traveling.

Patricia Drago joined the League because she wanted to make her local community better. After searching for a group that was active in these efforts in Volusia County, Pat felt the LWVVC was the right fit. Beginning with natural resources and concerns about the quality of life here in Volusia County Pat became educated in governmental interaction, or lack thereof. She was hired by the school system and

was able to apply what she learned first as site acquisition and planning and ultimately head of the division.

During her years of involvement, Pat has served as League President, Natural Resources Chair, and served on the Florida state board as secretary and education co-chair. Her current position is Education Action

Patricia's message to our membership is that with the League, you can cultivate diverse leadership skills in a supportive community.
Don't hold back, volunteer. Don't wait to be asked.

League Members Volunteer on 38th International Coastal Cleanup Day

Members of the **Volusia County League of Women Voters Natural Resources Team** volunteered for the 38th International Coastal Cleanup Day on Saturday, September 16, 2023. The weather was perfect - sunny, breezy and not too terribly hot. Natural Resources Team members met at two parks: Mary McLeod Bethune Beach in New Smyrna Beach and Michael Crotty Bicentennial Park in Ormond Beach. We had a great turnout and looked spiffy in our new LWV T-shirts made especially for this occasion.

Thank you to Saralee Morrissey for purchasing the shirts for this event and to everyone who made it possible to have them designed, approved, printed, and delivered in TWO WEEKS! We have more shirts available for purchase. See below how to order.

Beach Cleanup Crew

Beach Cleanup Crew

Judy and Travis Gordon

Carla and Jim Christianson with Pattie and George Gertenbach

We Have T-Shirts! LWVVC Fundraiser

Our League member, Saralee Morrissey, has generously purchased LWV t-shirts, which feature the League's logo on the front and mission statement and LWVVC logo on the back. These shirts are a great way of promoting the League and identifying us when we have an event.

League members wore them at the Coastal Cleanup on September 16th (see photos above) and several members of the public wanted to know about our local League's work – some didn't even know Volusia had a chapter of the League of Women Voters!

These 100% cotton shirts in sizes S, M, L, XL, 2XL, 3XL and 4XL are available for purchase \$20 (cash) and

\$19.20 (check). We are running low on some sizes so please reach out soon to League member Saralee Morrissey - saraleemorrissey@gmail.com and let her what you would like to purchase.

Membership Outreach

We need You! Bring a friend or neighbor to our next meeting. Join us for conversation at dinner after a “Hot Topics” speaker. Join a Local Leaguers group, introduce yourself to a guest or new member and welcome them to the League. We are the League.

Local Leaguers - The newest Local Leaguers group of Halifax has launched. The first meeting was on November 3rd. It included our members in Daytona Beach, Ponce Inlet, Port Orange, South Daytona, and Daytona Beach Shores. It is not too late to be added to the roster and get to know the members in your immediate area. Join us in great discussions about important league issues and learn how you can get more involved.

The West Deland Local Leaguers had a wonderful, well attended discussion facilitated by our President Nicki Junkins. The topic was “speaking With One Voice” the league way.

The next 2 groups to form will be the New Smyrna Beach area, followed by the Ormond Beach/Flagler residents.

We are still searching for members to host a small **Meet & Greet** at their home for our League. You invite the guests and provide a snack and we will do all the rest. It is a great way to introduce your friends and neighbors to the LWVVC, have a great time and, hopefully generate more members working together to accomplish our critical goals. These have been very successful in educating the community what we are all about.

We are especially interested in having our members from Edgewood, Palm Coast, Ormond Beach, and Flagler County host a Meet & Greet so that we can help to get them together to organize and join with us. We would also like to have a resident of Margaritaville as a host. Contact me so that I can tell you how you can be part of helping us grow.

If you want to be a part of our dynamic Membership Outreach Team, participate in our Local Leaguers or host a Meet & Greet please contact me at: bonnietunes@yahoo.com or 407-312-4944

Natural Resources Action Team

The Natural Resources Team had a great turnout for our Hot Topic about your Florida yard.

On October 10th at the Ormond Beach Public Library, Melissa Lammers, a member of our Natural Resources Action Team and representative of the Florida Native Plant Society Pawpaw Chapter spoke to a very engaged crowd about "going native" in plant selection for your garden. She is an avid Florida native plant gardener and did an excellent job of sharing the importance of planting native plants for insects and birds. There were lots of excellent questions and wonderful feedback. We know she inspired lots of fellow gardeners.

League Members Volunteer on 38th International Coastal Cleanup Day

Members of the Volusia County League of Women Voters Natural Resources Team volunteered for the 38th International Coastal Cleanup Day on Saturday, September 16, 2023. (see info and photos above).

Reach out to Nancy Vaughn with questions: nancyvaughn411@msn.com

Nancy Vaughn - Chair

New Women's Rights Action Team

A new **Women's Rights Action Team** is being formed. The team's goals are:

- Educate ourselves and community members/voters of historical and ongoing lack of gender equality and the resulting consequences.
- Advocate for positive change for women in all areas of society
- Focus on current equality issues affected by county, state, and federal government.
-

If you are interested in getting involved in this action team, there will be an introductory **Zoom meeting on Friday, November 17 at 5PM**. To join, please contact team chair,

Alicia Keenon at alicia.keenon@gmail.com and put "Women's Rights" in the subject line.

Education Action Team

The Education Action Team had a very busy month. We met on September 25 and heard a brief report on district vacancies, staff evaluation tools, and concerns on school campuses. The team discussed what information we want to share with LWVVC members at the planned January 24 Hot Topic meeting. We decided on three areas:

1. The difference between public, charter, private and home school, including enrollment trends,
2. Financial control,
3. What does a diploma mean?

We discussed the upcoming school board meeting and concerns about the book challenges in Volusia and across the state. We agreed that we would individually attend the meeting and wear our LWVVC T-shirts. Subsequently, at the last board meeting, LWVVC President Nicki Junkins stressed the need to focus all energies and resources on students and the classroom. Her comments were previously copied to the board.

Our presence at the school board meeting was much appreciated. There were several LWVVC members who are not Ed Team members, but who shared our concern about course content and books being challenged for political reasons. Ed Team member, Linda Cuthbert, former school board member and English teacher, gave the school board a timely lesson on the value of Huckleberry Finn in understanding

American literature. We have been asked by other community members attending to continue our involvement. This is League action at its best!!!!

At our last Ed Team meeting, October 23^d, we discussed the student attendance boundary changes being proposed with an emphasis on the Halifax Area. **On November 13**, Mitch Aten of the Project Oversight Committee will meet with us and share concerns. The annual report states there are problems with fiscal transparency. We want to learn more about this.

For information: patddrago@aol.com

Pat Drago - Chair

Growth Management Action Team

Our League's Growth Management Action team had a busy September and October. We met on September 12th and updated ourselves on various studies and activities including the [New Smyrna Beach Post-Ian Flooding Study](#), the [Florida Department of Transportation \(FDOT\) A1A Resiliency Plan](#) and the County's [386 Transform Plan](#).

League Board member and committee chair, Saralee Morrissey, also attended VCARD's (Volusia County Association for Responsible Development)

September 25th Building Resilience presentation on Flooding and Stormwater Management. This presentation was attended by various local government staff and elected officials. Speakers included representatives from [1000 Friends of Florida](#), [Ferguson Waterworks](#), [American Flood Coalition](#), and local civil engineering company, Zev Cohen and Associates.

Interest in the County's 386 Transform Plan was high. The committee met with Dona Butler, Office of Recovery and Resiliency on September 26, and again as a committee on September 29. The 386 Transform Plan outlines the plan for expending \$328.9 million in community development disaster recovery funds from the federal government over a maximum of 6 years. Monies must have a relationship to Hurricane Ian, benefit at least 50% of low- and moderate-income persons, and meet a need having a particular urgency.

The County Council voted 5-2 at their [October 3 meeting on the Action Plan](#), which includes \$200,000,000 towards housing (both repair/replacement and new construction), \$50,000,000 on infrastructure, and \$43,000,000 towards mitigation/resiliency measures. The Committee anticipates that it will observe and engage as necessary in the implementation of 386 Transform.

Upcoming meetings include a review of our League's local government position statement, a field trip to Daytona Beach's new Riverfront Esplanade, and planning for the April hot topic on the Status of our Beaches.

If you would like to be involved with the GMAT, please contact saraleemorrissey@gmail.com

Chair - Saralee Morrissey

Social Justice Action Team

On October 5th, the Social Justice Action Group planned our upcoming program for African American History month.

February 17th, 10:30AM, at the Palmetto Club in Daytona Beach,

The presentation is aimed at fulfilling one of the major goals adopted by our board in its June meeting: "to educate ourselves and the community about historic and current injustices." We want to provide an opportunity "to learn about the civil rights movement and advocacy efforts that led to positive change and can be applied to the social justice movement today."

The program will highlight the **1963 March on Washington** and its significance to the passage of the 1964 Civil Rights Act. There will be three speakers who participated in the 1963 March. They will speak about their reasons for going, its effect on them, and how it changed their lives.

At the beginning of the event, we will set the context—what was happening at the time, what was the purpose of the march, and who were the organizers. After the presentation, there will be a Q&A session. If members of the audience participated in the march, we would recognize them as well. The event will be followed by lunch. Information about cost and reservations will be sent out prior to the event.

If you are interested in learning about how you can participate in the League's efforts to promote a more just society, we would love to have you join our group. Just email me at garbercns@aol.com to

Speakers Bureau

The LWVVC Speakers Bureau has been very busy partnering with Voter Service to give presentations to area high school students eligible to register or pre-register to vote. Our presentation briefly goes over the struggle for everyone in our democracy to be allowed to vote. We also emphasize the importance of voting.

In addition, we have been receiving numerous requests from groups wanting to learn more about the League, who we are, what we do, etc. Where possible, I have asked our President Nicki Junkins to represent us since she is the voice of our league. We also just participated in the Alpha Kappa Alpha event speaking about the Importance of Being an Informed Voter.

This next year will be fraught with false narratives, scare tactics, slick candidate flyers, increased rules regarding voting, and more. We have pledged to educate our citizens so that they can make informed decisions at the polls. Educate yourself so we can help educate others. Our agenda is nonpartisan and factual information.

If you belong to other organizations looking for program speakers, please contact me using the email below to make a request. We will be posting soon on the website the topics available for presentation, but we are always ready to talk about the League, the fight for all citizens to be allowed to vote, and upcoming proposed amendments to the Florida Constitution when the list is finalized.

We would love to have more members participate in the Speakers Bureau. If you are interested, please contact Ann Smith at ahsmith5@bellsouth.net

Ann Smith, Speakers Bureau Chair

HOT TOPICS and Events

November Realities of Prenatal and Maternal Care in Volusia County

Speakers: Alexis Carey and Gabrielle Bargerstock

Infant and maternal mortality is extremely high in the United States, including Volusia County. Our presenters will explain prenatal and post partum barriers that prevent adequate prenatal and maternal care. The speakers will discuss how Healthy Start services support families in reducing the factors and situations that place pregnant women and infants in jeopardy for poor and fatal outcomes. They will also share ways we can all make a difference in changing the outcomes for both mothers and their babies.

Alexis Carey was born & raised in Tampa, FL. She graduated from Bethune Cookman University, with a bachelor's degree in communications. Alexis is a wife and a mother of 2 girls, 14 & 6. She operates a practice as a doula and is a Family Support and Engagement Specialist for the Healthy Families program.

Gabrielle Bargerstock has over 20 years of experience in community health organizations and initiatives and has been Executive Director of the Healthy Start Coalition of Flagler and Volusia Counties since 2020.

When: Saturday, November 18, 10:30AM

Where: City Island Library, 105 E Magnolia Ave., Daytona Beach

Optional lunch at Stavros, 262 S Beach St, Daytona Beach

RSVP: by November 15 to Jeanne Tanke at: jeanne622lwvvc@gmail.com

December Holiday Party!

Join us for our annual holiday social! Come and mingle with members of the League, bring friends and family! We will have a fabulous time. Hors d'oeuvres are included in the price of \$25. There will be a cash bar. Raffle tickets will be 1 for \$1, 6 for \$5, and 12 for \$10! Great prizes.

When: Wednesday, December 6, 2023, 6:00-8:00 PM

Where: The Daytona Autograph Hotel, 870 Victory Circle, Daytona Beach
Echelon Room and Terrace

RSVP Deadline: Thursday, November 30, 2023 to Cathy Egley at Jetski49@bellsouth.net

Observer Corps Reports

We need more Observers! Please consider becoming an Observer at one of our municipal or county meetings in Volusia County. You can share this responsibility with another LWVVC member. The function of the Observer Corps is to attend and observe meetings and submit short reports for The Voter. Meetings are held twice a month. When there is a controversial topic, a large turnout can produce a longer meeting. That, of course, is when meetings are exciting to observe!

Contact Susan Bayley at susancbayley@gmail.com.

[Click here for a list of municipalities in Volusia County where](#)

Observers are needed. Observers don't have to live in the town where we need an Observer. If you have questions about one of these vacancies, please go to its web site to learn more about the town, its services and governance.

Ormond Beach Commission Meeting - September to October 2023 Submitted by Susan Bayley

The proposed Belvedere fuel terminal in Volusia County brought a standing room crowd to the meeting. Legal counsel, Randy Hayes, presented a plan of action in dealing with the county that commissioners quickly approved. Unfortunately, no commissioner told the crowd that the site for the terminal is to be in unincorporated Volusia County, i.e., not under their jurisdiction. Next, they listened to more than 25 residents complain about the same concerns presented at the previous meeting. This time, however, a few very angry residents shouted at commissioners, threatening them not to re-elections. At one point, Mayor Partington had to interrupt a speaker to defend the hard work of the commissioners.

Wednesday, September 20, 2023: Commissioners vehemently opposed the Belvedere fuel terminal in unincorporated Volusia County on two new fronts, asking Ormond Beach to provide water and having it be annexed to the city. County Council Brower supported the city's decision to contest the terminal. Partington went to the Volusia League of Cities for its support, which was unanimously offered. A proposed expansion of the city's airport has been tabled for nine months, needing more bids before deciding.

Tuesday, October 17, 2023: Although ongoing resident comments featured opposition to the proposed Belvedere terminal, commissioners addressed the suburban residential enclave of Plantation Oaks. They also accommodated residents' complaints about a fence near Rte. 1 and the issue of noise during biker events. They allowed neighbors to explain the problem, with one complaining about a fence that doesn't sufficiently deal with noise. Partington reported that there are no plans for extending the runway at the OB airport.

City of South Daytona - September/October 2023 Submitted by Olga Hernandez

City of South Daytona motto is "Small City, Big Possibilities" the logo was updated this year. The council passed a budget with the millage remaining at 7.75. They are on track to eliminate their city debt by next year under the stewardship of this council and the city manager. After that they will use the phrase, "invest in us" as they work on upgrading parks, paving many streets that have had no maintenance due to lack of funds. The Piggotte community center on Big Tree was renovated earlier this year; many classes and events are held there. The James Street splash pad is in the works with a baseball theme, it should be ready for next season.

The city received \$750,000 from the state matched by city funds to be used toward lining sanitary sewer pipes that have deteriorated over time. This will ultimately save money as rain and other water incurs into the sewers and the city is charged for treating it as waste water. Several pump stations are also slated to be replaced.

The residential water meter exchange is on track to be finished in 2024. Residents will be able to see their water usage real time with the new meters. All in all, the city is working to clean up blighted properties and update its infrastructure to beautify the area.

Edgewater City Council Meetings - July, August, September 2023 / Q3 Submitted by Linda Mojer

Over the third quarter, standing business before the Edgewater City Council addressed issues of planned growth, related financial needs, incorporation and annexation of properties, ongoing stormwater and flood mitigation concerns, recognitions and awards, contract negotiations for personnel and services, plus multiple budget sessions to set millage rates and inform the public on the larger process.

September 25, 2023: In followup to the presented budget details earlier in the month, the Council adopted its proposed 6.33 operating millage rate, plus formalized year-end considerations around insurance coverage, liability waivers for cooperative training agreements, and ratified collective bargaining agreements. Also of note was its resolution to oppose the Belvedere fuel farm project in Ormond Beach, citing the dangerous proposal as presenting too high a risk for the entire county.

September 11, 2023: The City presented its tentative operating millage rate, along with separate resolutions for its Animal Shelter, Annual Fire Assessment, Go for Parks debt service and fiscal year appropriations. Collective bargaining agreements were also noted as part of the budget process. The final accounting position statement noted that: The current year taxable value in the City of Edgewater for operating purposes is \$1,722,557,143. The rolled back millage rate is \$5.6659. The rolled-back millage rate is generally the amount of property taxes the property owner would owe if there were no change to the City's budget. Staff has recommended a millage rate of \$6.33 for the fiscal year 2023-2024. This represents an 11.72% increase over the rolled back rate and will cover the increased cost of operations and maintenance of the City's General Fund.

August 7, 2023: Two added subdivisions of 100+ units each (Oak Leaf Preserve, Phase 3a & River's Edge) were granted final approval for development, following discussions expressing concern about stormwater retention and County responsibility for managing drainage infrastructure. In preparation for review of the City's sign ordinance, citizen's comments were invited to support changes to current advertising restrictions for small businesses. The City continues to advance its cooperative interests in seeking federal funding to develop the Southeast Volusia tech sector.

July 3, 2023: In the excused absence of the Mayor, Council member Gigi Bennington chaired the meeting. The Southeast Volusia Manufacturing & Technology Coalition shared a promotional video and slide deck presentation to outline its efforts to consolidate tri-City efforts to build local economic opportunity. Edgewater centers the region, which is expected to benefit from the growing commercial space vehicle launch industry. [SEVolusia.com](https://www.sevolusia.com) delivers the video, along with details about the designated industry corridor. Citizen's comments included a request for a letter of support to research, identify and potentially apply for matching funds through the Florida Forever and Volusia Forever conservation efforts. Final approval recorded for development of Riverfront Estates South, a 140 single family attached and detached homes adjacent to US1, south of Boston Whaler.

School Board of Volusia County - September and October, 2023 Submitted by Ann Harrell

During the recent School Board meetings -

- High school graduation dates were announced. See the Volusia School Informational Calendar at www.vcsedu.org.
- The Board heard an affordable housing proposal from a non-profit community organization, Homes Bring Hope, led by Forough Hosseini. The goal is to increase homeownership and reduce poverty. Hosseini made a pitch to the school board to donate any vacant parcels of land they own in 32114 so that the land could be used for affordable homes for district staff. The Board did not act on the proposal. It will likely be brought up in future board meetings.
- During the Oct. 10 Board meeting, more than 30 people spoke during Public Comments for and against book removal in Volusia County schools. The process of getting books removed from shelves and submitted for review was explained. Some of the speakers completed and submitted the objection forms for books.
- President Nicki Junkins addressed the Board on several issues, including the debate over what books to

allow in our schools. She encouraged the Board to focus on critical educational priorities, such as staffing every classroom with highly qualified teachers; more emphasis on addressing students' learning loss as a result of Covid; and the safety of our students and staff.

- School Attendance Boundary Changes for the school year 2024-2025 were shared. The Board directed staff to move forward with communication to the community about the attendance zone options.
- Several board members spoke about having Narcan in the schools. Dr. Balgobin spoke on how they are researching to move forward with having Narcan in the schools.
