Welcome to the Ventura County  
General Plan Update Project

On September 15, 2020, the County of Ventura completed a comprehensive update to its General Plan for the first time in almost 30 years. The update process began in 2015 and was accessible to anyone who wanted to be involved and share ideas. The adopted 2040 General Plan Update will help shape the next 20 years of Ventura County's growth and change. The outcome of the update will have a real impact on the quality of life in the County.

The adopted 2040 General Plan became effective on October 15, 2020, thirty (30) days following its adoption by the Ventura County Board of Supervisors.
