

Vote Early

Early voting is easy!

- Registered voters may vote early at [their local registrar](#) any time between 45 days until election day and the Saturday before election day for general and primary elections.
- Some localities offer [additional locations](#) for early voting.
- Once early voting starts, Vote411 publishes a nonpartisan guide and voting information at [Vote 411.org](#)

For the January 7, 2025 Special election, Early Voting begins on December 11, 2024. Early voting sites are open weekdays and on Saturday, December 28, 2024, and Saturday, January 4, 2025. The last day for Early Voting is January 4. For the June 17, 2025 Primary election, Early Voting begins on May 3 and ends June 14, 2025. For the November 4, 2025 General election, Early Voting begins on September 19 and ends November 1, 2025. Specific early voting times can be found at [your local registrar](#)

- It's useful to have a list of who you want to vote for. You may have this list on your phone, but be careful not to use your phone in any way that disrupts the voting process or infringes on others' rights to secret ballots.

How do I use curbside voting during early voting?

Voters who are unable to enter the polling place for any reason of disability (not just physical) or who are 65 years or older may request curbside voting during early voting. On election day, there will be a clearly marked location for curbside voting.

If you personally believe your voting rights have been violated due to inability to access an early voting location
